**Subject:** RE: Illinois River - work underway

Maria:

Taim provided the website language and access to two zip files containing the model information, as well as links to download the two softwares needed to run the models.

Bruce Fitch and Cindy Fanning are working with Merylen as we speak to modify the two EPA Region 6 State water pages: <https://www.epa.gov/ok/water-oklahoma> and <https://www.epa.gov/ok/water-arkansas> in order to incorporate the changes/additions.

6XA will show revised pages to David Gray to obtain his approval of the web information prior to uploading.

Thanks.

Patty

Maria:

Taim is working on the web language and links. He is supposed to call us back at 3:00 pm with the verbiage.  
Cindy Fanning is looking at making public the model SharePoint locations.  
We are doing everything we can to upload the info today.  
Thanks.

Patty

Hi Stacey.

We are looking into it now.

We need info from 6WQ-P and Cindy Fanning said she would assist us with posting onto the website.

Patty

Team,  
Can we make this happen?

We need to update the Illinois River webpage to reflect yesterday's announcement. Also, can we post the models themselves for downloading?
